Education

MA in Psychoanalytic Clinical Intervention

2022 - 2025

Pontificia Universidad Católica del Perú PUCP

Lima, Perú

- Thesis project: "Beyond the Therapist's Silence: Mentalization and Affective Gestural Expression in the Therapeutic Dyad During Insight Episodes"
- Graduated with honors

MSc Neuroscience

2019 - 2023

Universidad Peruana Cayetano Heredia UPCH

Lima, Perú

- Thesis part of a multidisciplinary research project financed by FONDECYT and the World Bank "Research model for the production of functional foods that prevent neurodegenerative diseases" (registration 60874)
- Thesis project: "Synthetic macamide MACOMCH-01 effect on parkinsonian symptoms in a Haloperidol rat model"

Academic exchange

2015

Tübingen Universität

Baden-Wutemberg, Germany

- Courses on neurocognition of numbers and perception, cognition and behavior.

Clinical psychologist

2012 - 2018

Pontificia Universidad Católica del Perú PUCP

Lima, Peru

- Emphasis on psychoanalysis and neuroscience
- Thesis project: "Parental bond and personal agency and empowerment in students of a private university in Lima"

Work Experience

Research assistant

Sept 2025 - present

Max Planck Neurogenetics Research Unit

Frankfurt, Germany

- Tissue collection, immunohistochemistry

Lecturer

Jul 2025 - Dec 2025

Pontificia Universidad Católica del Perú PUCP

Lima, Perú

- Behavioural Neuroscience
- Neuropsychology
- Thesis seminar

Research assistant

Dec 2024 - March 2025

Max Planck Neurogenetics Research Unit

Frankfurt, Germany

- Immunohistochemistry, fluorescence microscopy and genotyping
- FELASA course in rodent handling and hand-on training

Teaching assistant

Jul 2022 - Jul 2025

Pontificia Universidad Católica del Perú PUCP

Lima, Perú

- Behavioural Neuroscience
- Psychological Tests Design and Development
- Experimental Psychology and statistics

Laboratory Assistant

Jan 2023 - present

Cognitive Computational Neuroscience Lab / Pontificia Universidad Católica del Perú PUCP

Lima, Perú

- Provide technical assistance and methodological advice to laboratory users for the use of available equipment: EEG, audiometer and pulsometer
- Develop instructional material to train students, teachers and researchers interested in developing research projects in the laboratory
- Participate in the design and implementation of the training offered by the laboratory and train volunteers
- Grants and project writing

Research assistant

Aug 2021 - Dec 2022

Neuroscience Research Lab / Andean University of Cusco UAC

Cusco, Peru

- Handling of C57BL/6 and BALP/c mice: feeding, light cycle and cage cleaning
- Behavioral tests: forced swimming and elevated cross maze
- RNA extraction and cleaning for QPCR (quantitative polymerase chain reaction)

Clinical Psychologist

Oct 2020 - Aug 2021

Peruvian Air Force Hospital "Las Palmas"

Lima, Peru

- Evaluation and orientation of graduated personnel from military schools
- Development of an evaluation program for recruits who perform voluntary military service

Research assistant

Jul 2019 - feb 2020

Neuroscience and behaviour Lab - UPOCH

Lima, Perú

- Management of Sprague Dawley laboratory rats: feeding, light cycle and cage cleaning
- Stereotaxic surgery in adult rats, perfusion and immunohistochemistry

Psychology intern

Sep 2019 - jun 2020

Victor Larco Herrera Psychiatric Hospital

Lima, Perú

- Adult clinical evaluation
- Individual psychotherapy for adults with schizophrenia, bipolarity, emotional instability and addictions
- Creation of the psychodrama workshop

Technical Skills

Languages: Python, R

Tools: Psychopy, Pavlovia, GitHub, LaTeX

Publications

Projects

Cognitive Computational Neuroscience Lab - PUCP

- "Towards the development of a neurocomputational profile of Peruvian women with symptoms of Complex Post Traumatic Stress Disorder"
- "Multisensory integration and auditory sensitivity of students with high abilities from a private university of Lima"

Courses

IBRO - Behavioral Neuroscience and Behavioral Disorders School

Sep 2024

Participant

Montevideo, Uruguay

- Neurobiological basis of healthy and altered behavior
- Techniques used in animals or humans for research purposes (Local field potential recording, PET/MRI, behavioral test, psychometric scales, stereotaxic surgery, among others)

FENS – Chen Institute – NeuroLéman Summer School

Aug 2024

Participant

Lausanne, Switzerland

- Monitoring and manipulating the affective state: new perspectives on neurotechnologies and AI tools

NeuroMatch Academy

Jan 2024

Participant

U.S.

- Course in computational neuroscience
- Topics: Modeling, machine Learning, dynamical systems and stochastic processes

IBRO-LARCH Peruvian school for research in neuroscience

Oct 2022

Teaching Assistant

Cusco, Peru

- Research methodology and stereotaxic surgery
